Recap

Background and Context

The spaces around us are not static, but ever-changing.

Active space explores space as a site for experience.

As creative practitioners, we will explore the potential of activating spaces for performance and interaction.

Task:

You are to be divided into groups of 4-5 students. Each group will be assigned a space within the atrium gallery.

You are to design a spatial intervention that activates the space that your group is working on.

Considerations:

You can choose 1 or more of the following as outcomes for your spatial intervention:

Interactive projection

Dynamic Sculpture

Mixed Reality

Considerations:

You can choose 1 or more of the following as outcomes for your spatial intervention:

Interactive projection

Dynamic Sculpture

Mixed Reality

Considerations:

Your concept should focus on one or more of the following topics:

LCC communities (inside and outside)

Access and opportunity

Student journey and voices

Sustainability Intersectional identities (social/cultural/ethnic)

Considerations:

The theme for this year's showcase is Growth and Repetition. Consider how you would incorporate these keywords into your chosen topic.

Focus on:

Visual Language

Content

Media

Workshop

Task:

Continue to work on your proposals, testing and taking photos in the space.

Prepare a 5 slide presentation as a group that highlights your proposal. Include content as appropriate -

//What is your chosen topic/concept?

//What is the site footprint?

//How do you incorporate growth and repetition?

// Images/Videos/Links/References

//Tech required and feasibility

Presentation
